

The Johns Hopkins Hospital CT Imaging Program

This program is a five month, full time program whose mission is to graduate competent entry-level CT technologists. In order to accomplish this mission, the integrated curriculum is designed to provide both theoretical training in the principles of medical imaging and provide hands-on clinical training. The program is accredited by ASRT and exceeds the minimum structured education requirements for ARRT certification in Computed Tomography. In order to be eligible to apply, candidates must be ARRT certified in Radiography, hold state licensure from the Maryland Board of Physicians, maintain CE compliance, and possess a strong desire to learn CT.
